RE: One Way Traffic Pattern - Glorieux Street -  
Professional Services Agreement

Date: October 12, 2016

In response to a request from the Municipal Council for the implementation of a one way traffic pattern on Glorieux Street, a traffic study is required by the County of Essex. This is due to the fact that Glorieux Street intersects with a county road, Stuyvesant Avenue, at the northerly terminus of Glorieux Street.

As the services required are beyond the current capabilities of the current township staff, a request for proposals from the consulting engineering firms that are under an annual contract with the township, was requested.

Two acceptable quotes have been received for this work:

Firm	Cost
Neglia Engineering	\$ 4,650.00
Pennoni Associates	\$ 14,230.00

Based on the above, it is recommended that a professional services contract for the above work be awarded to Neglia Associates.

A proposed form of resolution is attached.

Should you have any questions with respect to the above please advise.
