### **What is a tax sale?**

All municipalities in New Jersey are required by law to hold annual sales of unpaid real estate taxes. By selling off these tax liens, municipalities generate revenue. Tax sales are conducted by the tax collector as an enforcement tool. At the tax sale, the title to the delinquent property itself is not sold. A tax sale certificate (TSC) is prepared as a lien on the property. Third parties as well as the municipality bid on the delinquent charges. At the conclusion of the sale, the highest

bidder pays the outstanding taxes and becomes the holder of the TSC. The TSC must be recorded with the County Clerk to become a noted lien against the real estate. The lien holder will have a vested interest in the property, however, he / she / they will have no rights to enter the property and is not the assessed owner.

**What is the difference between a tax sale and an accelerated tax sale?**

Most tax sales occur the year after the taxes are due (Standard Tax Sale). In an accelerated tax sale, the sale occurs in the same year that the taxes are due.

**What is a lien and how do I get a lien off my property?**

A lien is an enforcement to collect delinquent municipal charges. To get a lien off your property, complete the [Lien Redemption Request Form \(PDF\)](#), and return it to the Tax Collector's Office.
